TO PARIS

Dearest Mrs. Rubinstein,

Eva didn't need me last week so don't know the lstest with you but I hope all OK. Strange to think of Johnny's being in California now, and the children going to school there - but am sure it's all for the best.

All OK here...weather suddenly fallish...The hurricane blew down some of our trees in the country - none near the house - and some that we might have cut down ourselves at some point. The worst part was being without electricity - re food in the freezer - vegetables frozen-from the garden. But things could have been worse. We haven't been up. Things here in J. Hts all right - few trees down...no one hurt. Around 35,000 homes further out in L. I. still without power.

....

The Citibank Visa bill has come in - $68.59 total - "for September 4 - Viajes Melia, S.A. Marbella (11,761.00 Spanish pesetas.)" ...OK? for your check which I will forward.

Again, I pray things all right with you in Europe.

My love, always,

CHC
