Tuesday morning 5p

So I'll scribble a little more and drop it down the slot. Not much of a letter just a line so you will know I think of you.

I see by your "records" that Margaret came every day but what did she do? Certainly not much housekeeping! Those green pajamas I found soaking saturday faded a lot but I think not in streaks so they will look okay.

Szeryng's recording of the Brahms violin concerto with Monteux came for Mr. R.

We are having wonderful spring weather and the map says the whole Pacific coast is clear so hope your stay will be warm and sunny. We miss you both constantly – take care and come safely home to us.

Always yours devoted
Kate
