Sunday

Dear Dolly,

I am writing first to wish you a wonderful birthday, or at least as nice a day as possible traveling between two towns !!

Secondly - my exams are all over but I haven't got the results yet, so I am still in a nervous state hoping everything works out well - both tests were very tough, and they count for about 3/4 of the total grade - - -

I just sent a wire to Eva wishing her luck for tomorrow night in New Haven - I will see her next week when the show comes to Philadelphia -

I saw Milstein at the Players Friday - and he said he saw

you in St. Louis recently -- he seemed very surprised at my size -

I just filed the first income-tax return of my life - but for me it is not unpleasant, since I get a little of the tax I have already paid refunded to me -

At the office things are rather slow - business is bad and we have been forced to lay off some of the workers. The unemployment situation is getting bad - I have talked to men who have been fired after 10 or 15 years work with some company, simply because of lack of work.

I wrote home a while ago, but have not heard from them - In my letter, I told Mama that

I was planning to move to an apartment around here and get away from this house, but I couldn't find anything decent nearby, so I'm staying here till June —

I'll never be able to thank you enough for the wonderful Christmas you made possible — It was so nice to see the whole family again -- and the children were such a success with everyone —

When will I see you again? I hope fairly soon —

Please take care of yourself —

Much love from

Paul
