Paris, Sept. 14, 1964

Dear Kate :

Thank you for your letter about Johnny I am most grateful for your help and happy that he seems to like the college.

So far he wrote us just one post card I hope he will be more eloquent in the future.

I am a little worried about the apartment situation , $ 100; a month seems a lot of money . He ought to make an effort to find something cheaper or at least not commit himself to a long lease at this price, but, of course, it is hard for me to judge at this distance. I do not know whether there are other combinations. May be Mildred Knopf could help, she knows so many people around there, but I leave this entirely to you as I do not know whether you wish to get involved with her.

I am in a great hurry just now, so that is all for today.

Please keep me posted about Johnny as I cannot rely on him very much for writing.

Love and kisses from

Your old boss
