"Your home"
My home.

Ikela darling.

The enchanted days slip by here. and each day I say to my self I must write and then I don't. The are a very happy family. Jim. Johnny and Lali are lovely and unspoiled. They look so well and Pinkie is really a fine person. The children speak so beautifully no so oral tiwany and no American slang. I like the

South as a nation and a people. They are loyal and honest. You will find a great change in your Johnny. His speech is really amazing for his age and he adores Charles. I think it is the masculine element. He goes down that slide in the playground in an amazing way. A few days ago he called "Charley Charley. Then after a minute's pause he looked at me with those wonderful eyes and said "Charley is my pet".

I spent a great deal of my

time with them naturally.
The sing nursery rhymes at
the piano. and I wish I
had a picture of them
both. They look so adorable
Anna looks very well. and
seems very happy. The sport - a
wonderful day at the
Lowerre ranches yesterday. Anna
loved every minute of it
and they all loved her.
I think she felt very
much at home. with the
family. The younger daughter
married a few weeks
ago - a very handsome

charming boy who will
finish his last year
in law at Stanford
University. It made me
feel sad to think of
Mr. Bonnerz all alone in
that huge ranch without
his wife. She was such
a dominant personality
and he adored her. Lilian
has two charming children.
We lunched at Rancho Sonita
first, then drove to
Dinis ranch. After her flight
she will build a
new modern home and

of course. air-strips for their planes as her husband is also a flier. Her flight has been held up as she had to send to England for parts for her mosquito bomber.
Mummy has probably told you of our visit to the air-port to see her plane. Mr Converse met Mummy for the first time and said to her. "I can see where Mr Rubinstein has inherited his beauty".
They became great pals.

and I was happy to see
her gay and interested
We had tea at Lily Dooley
and arrived home about 7.30
It was fun to have
Bronie and Doris with us.
That a wonderful concert
the French orchestra gave here
I went with Mummy and
we did enjoy it. I was
sorry Iva did not hear
them but she went to
a dance at her school.
She is going through a
romantic stage at the
moment. Bruce is a nice
boy but a bit on
the girly side. Will

never been really manly (7)
to different to our Land-
ladies is really masculine
He brought her home from
the dance, and we found
her playing the records
of Hamlet for him. I
think he was a trifle
bored. Iva sitting with
a soulful expression
on her face listening
to L. Olivier's voice
perhaps a little too much
for his vanity. Then she
is lost in admiration for
her dramatic teacher.
She came to dinner a

few evenings ago but - 8
did not impress us very
much. A nice young woman
but - very ordinary. We are
going to spend Thanksgiving
with dear Brand. We want
very much to see him.
Then on the Saturday the
Conners family Silvia and
Stewart call for us here
to take us to the
Ranchero Lomita for the
week end. Then they drive
us to Santa Barbara to
catch the train for
home. I cannot tell you
Ocela darling what happiness
we have here. We have

a real visit with the family. It is so quiet and Mummy and Charles love each other so much. They read together at night in Arthur's study and are most effectionate. Your bed is much too comfortable I am really lazy. Lucy one is working well in the house. and Roy very busy in the garden. The Fontana people are thrilled to know our beloved Arthur will play there. I will fly down and probably stay with them for the night. I am so happy.

he has had such a great success everywhere and that you were with him. Kiss him for me and tell him how much I love him. You will be amused when I tell you Charles and I made our final wills before leaving San Francisco. We thought it better in case something happened to us at the same time. We have left everything to Lali and Johnny as they are the youngest and left Arthur executor. The money or property to be sold or used at any time for their education or

for any other purpose. I will leave a copy here for Artie and if you want anything altered please let us know. For Paul's future I have no fear. He will always make his way in the world: and our romantic Grace will marry early. She looks so beautiful. Met us at Glendale with Dravo and looked so lovely in that blue hood and blue dress Grace had made. This is a long rambling letter my

sweet - Ethel. Did you
know Eva Jones is married
He is 52. a widower
and has a fine position
in United Air Lines. He has
his own home. he has
left - since his wife died
in Burbank. We were in
time for her wedding
here and are going to
their home to dinner on
Friday. They will call for
us and bring us home.
Lali and Johnny are here and
want to write to daddy
and Daddy. This means I love you
very much Lali. Johnny writes
Mummy I kiss you. They both put
a kiss in the page about love
