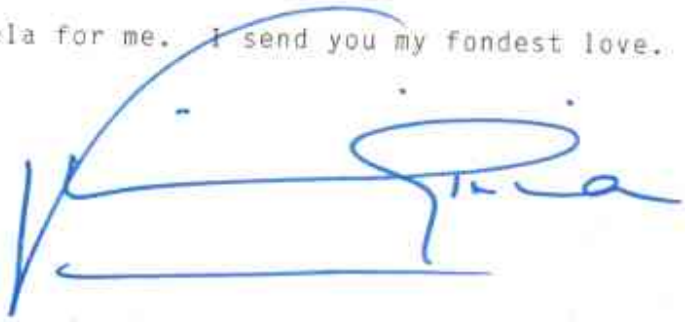
13 November, 1987.

Dearest Nela,

Not only did you give me the most wonderful and ever to be remembered evening at the Institut Pasteur Gala, but you have bothered to send me my heavy, heavy program. In fact, you are quite a special lady.

My poor Sussex cottage really took a beating with the Hurricane. To be landed with that problem on top of inondations in Antibes was a little rough. However ... let me know when you go to the States and if you are staying there for Christmas.

I have been thinking much about you and hope you have been able to make the trip into the country that you so wanted to do in Poland during your present visit.

Look after Nela for me. I send you my fondest love.


As always,
