Love for always

My darling, dear Nelo –
I do hope this gets to you and darling Arthur in time to receive our love on your anniversary. It seems funny to be so far from there on this all important day. What wonderful memories it holds at both houses!! We have found sunshine at last and are rapidly turning brown as chestnuts. Eddie is very happy with his routine of swimming, eating, tennis playing roulette & sleeping.

He is very relaxed and I am glad because he really drove like mad all over Europe for weeks. Our trip from the Dolomites here was an exhibition of prize driving both on the part of the Jaguar and of my husband. The scenery in the Dolomites was unbelievable — too glorious but the weather left much to be desired. Darling, darling this is also to send my birthday love and Eddie's — how we love you and wish for you only that which is good and permanent and the very very best. You have so much of that already. How I hope you're taking care of yourself.
