To Paris

Dearest Mrs. Rubinstein,

And now you are resting up after your lovely, lovely time in Monaco! I am enclosing as many newspaper clippings as I could find re Monaco, and could it be that that is you in the Thursday /Times with the tiered-ruffles dress - dancing????? Could it be???? And you, of course, danced with Cary Grant, Gregory Peck, David Niven, and ??????? I do so hope you did have a good time!

And, of course, I thought about you yesterday at your lunch time - re Mr. Bienstock...

.....

I went to see Mrs. de Stuckenbergh Wednesday night at the Lenox Hill Hospital. She was up, walking around with a cane, actually looked very well, and will be in there until July 12th - Mrs. Koral is going to be away until about that time. / Eva had also been to see her (after I called her) and had taken her an African violet. I stayed about 20 minutes - I feel people get tired. I brought her Agatha Christie mystery books which she said she wanted. I will go again next Thursday (and take the July 15th check). She is in room 1121.

? Did you decide any more about increasing Alina's monthly checks - re H.H. account??

? Do you still want Eva's tax returns (or in a more condensed form)? (Forgive typing errors - am trying to get to P.O. before closing time.) Have not seen Eva since you left. Did Johnny ever (!) acknowledge receipt of your drawings?

.... My thoughts and prayers are with you, always, always, always - and my love.

ehe
