Most Honoured Parents.

No. 1 daughter most tardy in replying to honorable letter which caused much giggles — (Poor no. 2 brother's complexion is result of having large pores like sister no. 1 — sister did much retouching to make look better! So solly.)

Daughter #1 went dinner party young fancy art gallery people met Germaine lunch April — Very ritzy and high-falutin' & fairly boring. Hot-shot TV executives with under-age over-made-up girl friends who were sent out on errands "call the chauffeur, get my cigars" etc all evening —

2/ good food, though - Otherwise too tired for mischief - work very hard, on feet all day, home, eat, work more, sleep (?) - We were right about the apartment - make much desire work - cozy corner not even visible unless one goes around the corner so no temptation curling up — have sat on couch three times!

Boys here last weekend - a bit of sibling-snitting - next time one at a time. Saw Beatles movie, went to zoo -

Called Alice (want to snap her) sick with Hong Kong flu -

Daughter overjoyed Father well and concerts success -

3/ Also most pleased parents not drown in various floods and other misdeeds of nature! — Please to caring for selves!!

Daughter on run — saw daughter #2 briefly, exchange of legal documents + hamburger. Most hopeless trying to serve summons on rat-fink landlord — Money most probably down well or up tree. Still trying.

Thanksgiving at brother no. 1 pleasant + filling, * Carp * + turkey. dessert didn't work too sweet too much gelatin but bird perfect — Gary and Naomi, sister #2, me.

QUESTION — Does honorable Mother still have in possession venerable Rolleicord camera?? or given away — ? If still have,

4/ and not in use, could daughter no. 1 use ?? Make much bigger negative than 35 mm. camera, important for some kinds work.
