1951-52

Yale University

April 29

Dear Parents:

I thought it was about time to drop you a note about my progress in studies. The tests I was talking about when I last saw you are all over, but I just got back the grade of the first today. It was a nice, fat 80 in Drawing, which might put me over the 70 mark in that course. The Political Science test was not difficult, but there were two long essay questions, and those you can never tell about. In English my theme has not been returned yet, but I put a lot of work into it and I'm hoping for a decent grade. There will be two more papers before the end of the term, so in any case I have all the opportunity in the world of improving that course. French continues well as usual. My main worry right now is Math, which could be Greek for all I understand of it. I am tutoring the course and I hope to absorb enough in the next couple of weeks to pass the final exam. I hope all this isn't boring you

too much. It is occupying my mind quite prominently at the moment.

I called the Hurok office and asked them to get me a ticket for the afternoon of the twenty sixth of May. When are you arriving back east? My exams are as follows: one on the 17th, then nothing until the 22nd. If you don't arrive in that interval I'm going to the house of a friend in the country, away from civilization, traffic, etc. to study more quietly.

Well, thats about all for the moment, please let me know when you are coming so that I can plan accordingly.

Give my love to all at home,

Love,
