June 7th

Dear -

Alas & alas it was impossible to remain in Paris as I have many engagements here so we fly back on Sunday -

It would have been lovely for I see you are playing on Monday night - That would have been a great joy.

If only one had known beforehand it might

have been possible to arrange.
So much to talk about —
Are you sailing home direct
from Paris —?
Poor Lord Colefax has been
in bed now for 6 months
wonderful spirit & courage
but I fear she is really very ill
tho she loves seeing people
I saw her the other day & that
she uses her life through her
friends —
I have seen Jon Channing
friends the Wegers several times

& am trying to find the Lord another job –

Poor Sylvia Caine has had a shocking accident – dragged for 50 yards under a car – by a driver who was learning to drive & believe couldn't stop –

She is pretty badly hurt but has suffered both from fail –

This sounds a very hurry letter

I hear you talk about your family? I bought your grandson an enchanting Sèvres saint in Paris — which was fun.

The opening of the Bonhet Travel Centre — the Place Vendôme was the real reason for the visit — it tells everyone of the attractions of your Country and information which it could persuade you both to visit them — Congratulations Lady.
