Dear Nella,

Hope you received my cable giving you this Madrid address.

As your reaction was one of enthusiasm may I suggest that you send me a rough floor plan and indicate the number of rooms and approximation of the size of these rooms so that I can have them prepare a draft of the architect's plans to submit to you for approval.

Please also give me your itinerary and address for the next month or two so that I can keep in touch with you while these plans are being developed. They intend to draft these plans at once for you so as to start construction within a month's time - if that suits you.

All the best to you both,
